## PROJECT

### Front-End Mini Projects

Created three fully responsive single-page websites.

- Tech Stack: HTML, CSS, JavaScript
- Focused on clean, minimalist layouts with smooth scrolling and mobile-first responsiveness.
- Ensured cross-device compatibility, providing a seamless user experience on desktops, tablets, and smartphones.
- Demonstrated proficiency in building intuitive, user-friendly interfaces without relying on external design tools.

### IT Management System

Developed an IT Management System with secure login functionality for both admin and employees.

- Tech Stack: HTML, CSS, JavaScript, PHP, MySQL
- Designed and implemented an Admin Panel to manage employees, assign projects, track progress, and calculate performance-based bonuses.
- Built a User Panel allowing employees to submit projects, update profiles, apply for leaves, and access a leaderboard.
