OBJECTIVE

M.Sc. Computer Science graduate currently working as an AR Caller at Infinx Healthcare, supporting international clients through issue resolution, system navigation, and structured troubleshooting workflows. Skilled in accurate documentation, cross-team coordination, and fast-paced problem resolution. Seeking an entry-level Technical Support role to leverage strong analytical thinking in a dynamic IT environment.

SKILLS

- **System & Support:** Windows OS, Software Troubleshooting, Debugging, Remote Desktop Support
- **Technical:** HTML, CSS, Java, Bootstrap, Tailwind
- **Tools:** Visual Studio Code, IntelliJ IDEA, Git & GitHub, Microsoft Excel
- **Support Skills:** Issue Documentation, Issue Escalation, Process Adherence, Customer Communication, International Client Handling, Problem Resolution
- **Typing Speed:** 82 WPM (95% Accuracy)

PROFESSIONAL EXPERIENCE

AR Caller (Apprentice) Infinx Healthcare (Training: Jul 2025 – Sep 2025) **Sep 2025 – Present**

- Managed healthcare account operations targeting 80+ charge closures daily via internal systems and payer portals.
- Investigated account issues across payer portals using structured troubleshooting workflows.
- Maintained accurate issue documentation and system records, ensuring data integrity across all claims.
- Coordinated with internal teams for issue escalation and timely resolution of pending claims.
- Handled international client communication professionally across time zones.

INTERNSHIP

MERN Stack Intern – lunoware Pvt. Ltd.

May 2025 – July 2025

- Contributed to a real-time school operations application, assisting in feature development and debugging.
- Gained exposure to application workflows and issue handling processes.
- Worked in a task-driven, collaborative environment delivering assigned tasks consistently.

PROJECTS

Front-End Mini Projects

- Built three responsive single-page websites using HTML, CSS, and JavaScript, ensuring clean layouts and cross-device compatibility.

IT Management System

- Developed a secure IT Management System with role-based login for admins and employees.
- Implemented authentication, project tracking, and reporting features.
- Tech Stack: HTML, CSS, JavaScript, PHP, MySQL.
